

## Soffione

### Application:

Soffione steam hose is specially developed for saturated steam in industrial cleaning functions. Can be used for pressure equipment.

The hose is not suitable for steam cleaners.

### Construction:

The Soffione hose is made of EPDM rubber both on the inside and the outside. The hose is black and smooth on the inside and red with canvas structure on the outside.

- The hose is steel reinforced
- The hose can withstand very high temperatures
- Durable and weather resistant

## Technical specifications

### Temperature:

The temperature ranges from -40°C to +210°C.

The hose can briefly withstand temperatures up to +230°C with a working pressure of 18 bar.

### Pressure:

All pressures are stated at the temperature +20°C.

### Safety factor:

Safety factor:  $\geq 10$  times the working pressure.

Product number	Inner dia. mm	Outer dia. mm	Working pressure bar	Burst pressure bar	Color	Metres per coil	Net weight kg.	Base unit
