

# ROTAPOINT<sup>®</sup> COUPLINGS •

## **ROTAPOINT® COUPLINGS**

The ROTAPOINT<sup>®</sup> swivel prevents torsion in the hose and extends the life time of the hose up to 20 times. It allows free hose movement without imparting torque stresses to the hose assembly.

The hose swivel is designed to endure a wide range of temperatures and pressures for a variety of different fluids.

#### VALUE PROPOSITION

Longer life of your hoses and other parts

No machine failure , cost decrease, durability of hoses and other piping = peace of mind

Applicable on all type of hoses

### HOW DOES IT WORKS?

The rotating coupling is assembled on both ends of the hose.

During service, the hose is held under pressure. The swivel will avoid the torsion in the hose due to movement.

This will prevent one of the biggest causes of premature hose failure.

#### MARKETS

The ROTAPOINT® swivel coupling can be used on all types of hoses such as stainless steel, PTFE, rubber, silicon and plastic hoses in all types of industry and applications.

CONNECTING THE INDUSTRY

#### FEATURES & BENEFITS

#### **FEATURES**

- Different materials available
- Speed
- Simple design
- Wear identification
- Configurable
- Gasket technology
- Compatible with LMC range fittings
- Lubrication option
- Life time calculation

#### **BENEFITS**

- 100% solution for failures
- Safety wear control
- Long life
- Low maintenance
- Full range of sizes, materials and connections
- Always fit and adaptable
- Easy installation
- Wide temperature range
- Compact design

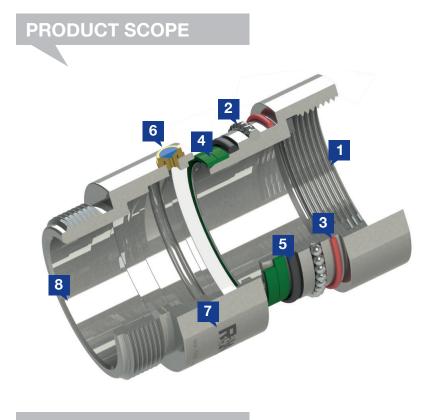

#### PERFORMANCE RANGE<sup>\*</sup>

#### **TECHNICAL SPECS**

Material: Extra strong aluminium / SS316 / Brass / Hastelloy

Seal: NBR / EPDM / FPM / Kalrez® / PUR

Sizes: 1/2" / 3/4" / 1" / 1-1/4" / 1-1/2" / 2" / 2-1/2" / 3" / 4"

Threads: BSP / BSPT / NPT

Shaft connections: fem. x fem. / male x male / male x fem. / male x fem. 90° / male x male 90° / fem. x fem. 90°

1 Female thread, flat sealed

silicon dust protection

4 Stabilisation gliding strips

7 Performance and tracebility

8 Male thread, flat sealed with

2 Hardened SS440C ball bearings3 Wear identification

self lubricated

low friction

6 Grease nipple

marking

extended head

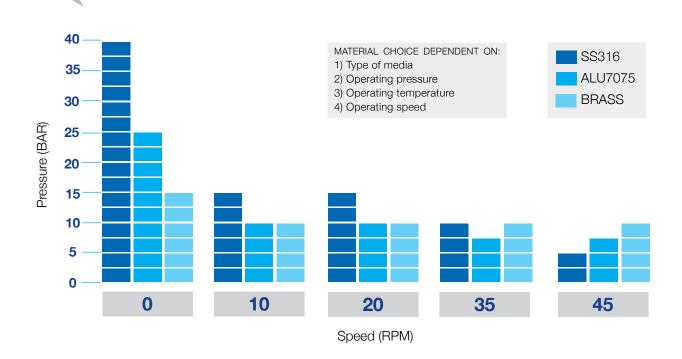

5 Precision sealing ring,

## **ROTAPOINT® COUPLINGS**

#### HOW DO I CHOOSE THE BEST ROTAPOINT® FOR MY APPLICATION?

#### ACCESSORIES

The rotating unions and their different accessories are available in the corresponding materials. They make numerous configurations possible. Including radial flow, when applying 90° elbows. LMC advices to use only the original ROTANIP and ROTABOW accessories for your peace of mind.
